| Gretz Pitot Tube Mount | $ 105.00 |
| Jabiru 3300 Engine | $ 18,900.00 |
| FWF with Propeller | $ 5,166.00 |
| Radios and Electronics | $ 9,000.00 |
| Total: | $ 69,345.00 |

**Remember**, total does not include crating or shipping, which will add a couple more thousand to the price.  Nor does it include all of the other trinkets and items that I can't even think of right now.

Even with the quick build fuselage, you're not even 50% complete.
With fuselage, wings and all other control surfaces built, engine and most of the wiring complete you are saving HUNDREDS of man hours.
You're going from several years of building, to several months to completion.
